

I am Srijan Bhushan, CS fresher and a tech/coding enthusiast. Previously I have worked upon various tech/coding events some of which are listed below. On campus look forward to strengthen my coding skills.

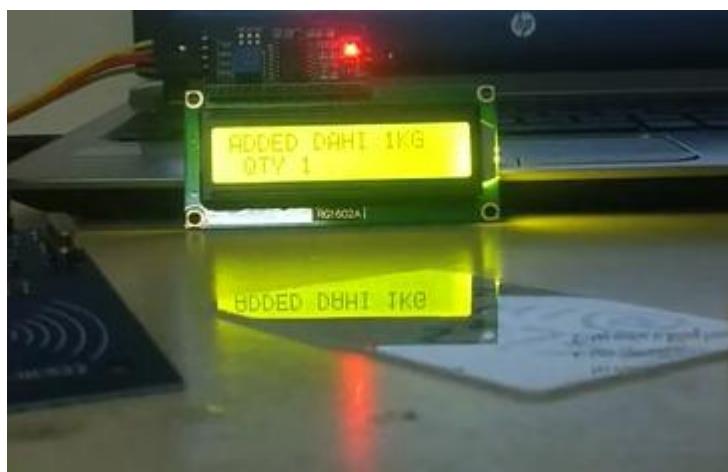

I was part of The ATL (Atal Tinkering Labs) a NITI AYOG(Gov. of India Initiative) till class 12<sup>th</sup> in School.

Participated in various tech marathons like: ATL Marathon , Inspire Awards Manak etc.

**Coding Experience:** 1. Arduino 2. Python 3. HTML Basics 4. C and C++ (Learning right now)

**Past Project:** Previously had worked on **face recognition , Lane Follower, Home Automation systems and Basic IOT based systems(Using arduino,Node MCU).**

**Currently Learning:** Language Models (LMs) and AI fundamentals from Google Deepmind sources.

Glimpse of one of my old projects tried to replicate a autonomous shop.
